Draft Version: 1.1 Effective Date: 23/11/2013

Purpose

To outline the services provided by IHM to support overseas students to adjust to study, achieve their learning goals and make satisfactory progress towards the learning outcomes of the course in which they are enrolled.

Scope

This policy applies to overseas students enrolled in IHM and staff involved in the provision of student services.

Responsibility

The Student Support Advisor is responsible for implementation of student support services. However, some aspects of this policy fall under the responsibility of other staff members whose positions are named in relation to those specific aspects. Monitoring and evaluation of student support services is conducted by the Teaching and Learning Committee, which reports any relevant risk and quality data to the Quality Assurance and Risk Management Committee. The Internationalisation Committee provides advice, reviews this policy and provides the Student Support Advisor with advice regarding the needs of overseas students.

The Student Support Advisor is also responsible for ensuring up to date information is available for the following services and the contacts listed are current. This information is distributed to students through the orientation program outlined below.

Student Support Services

The following support services are available and accessible for all overseas students. IHM will provide overseas students with contact details to refer any matters that may require further follow up with relevant professionals. Any internal referrals conducted by IHM are at no cost to the student but fees and charges may apply where an external service is used by the student and this should be checked by the student prior to using services outside of IHM.

Lecturers

Lecturers and Course Coordinators work closely with overseas students and therefore have an important role in student support. They keep in regular contact with student support staff and with staff involved in other areas such as student services (Student Administration and Registration Services Manager) and library services. Lecturers receive training from the Student Support Advisor and are familiar with services and resources to help students. Lecturers will arrange regular consultation times that are convenient for students, during which they will make themselves available for contact in person or by telephone or Skype. They will also proactively contact students as required to assist with their progress. Lecturers will share their office location, staff email address and work telephone number with students.

Appointments can also be made for telephone and face to face support sessions by the use of an Appointment Request Form, which will be made available both online and in print.

The Student Support Advisor will maintain the referral database for external providers of services relevant to personal support and will refer students to those services.
